

Center for Craft Food & Beverage

Supporting **growth** and **innovation** in craft food and beverage production through quality testing, research and education.

Investment

- The Center was awarded a total of **\$1,125,000** in start-up funding from federal, state, and private sources
 - Empire State Development
 - USDA Rural Business Development
 - Appalachian Regional Commission
 - George Alden Trust

Megan Douglass

Rachel Truland

Grain Quality Testing

Malting Barley Selection (Moisture, Protein, Plumpness, Test Weight, Germination, RVA, & DON)	\$75
Moisture and Protein	\$15
Starch	\$25
Germination Energy (4mL, 8mL & Capacity)	\$20
RVA (pre-harvest sprout damage)	\$25
Cereal Extract (ASBC Cereals-5)	\$100
β-glucan	\$75
DON (ELISA)	\$35

Malt Quality Testing

Full Malt Analysis – (Moisture, Assortment, Friability, Fine Extract, Coarse Extract, F/C Difference, β -glucan, viscosity, FAN, soluble protein, S/T, DP, α -amylase, color, pH, filtration time, clarity)	\$150
Basic Malt Analysis – (Moisture, Friability, Fine Extract, β -glucan, FAN, DP, α -amylase, color, filtration time, clarity, pH)	\$75
Enzymes Only (Diastatic Power & α -amylase)	\$50
Specialty Malt Analysis - for high-dried and caramel malt (Moisture, Extract, Color)	\$25
Phenol – for peated malt	\$85
Fermentability (Apparent Attenuation Limit)	\$125
Predicted Spirit Yield (PSY)	\$125
Gycosidic Nitrile (GN)	\$225

Micro-malting

- 200 gram to 10 kg sample capacity
- Variety & Agronomic Trials
 - Cornell
 - Penn State
 - Virginia Tech
 - North Carolina Department of Agriculture
 - North Carolina State University
 - UC Davis Extension
 - Oregon State University
 - Washington State University

How much can you get for a bushel of barley?

Product	\$ / bushel	\$ / acre
Feed Grain	\$2	\$100

Product	\$ / bushel	\$/ acre
Feed Grain	\$2	\$100
Malting Barley	\$10	\$500

The logo for Valley Malt features the word "Valley" in a green, sans-serif font. The letter "V" is stylized, with its two strokes curving upwards and outwards. Below "Valley" is the word "Malt" in a brown, serif font. The letter "M" is stylized, with its two vertical strokes curving downwards and outwards. To the right of the text is a detailed illustration of a wheat stalk with a golden-brown head and several long, thin awns extending to the right.

Base Malts

2-RROW PALE

- SRM: 3.5
- Protein: 9.5%
- CG Extract: 81%
- Flavor: Clean, malty, bread crumb.

2-RROW PILSNER

- SRM: 1.8
- Protein: 10.5%
- CG Extract: 81.5%
- Flavor: Crisp, sweet, light straw clean finish

VIENNA

- SRM: 4
- Protein: 9%
- Extract: 81%
- Aroma: Sweet Aromatic, Breakfast Cereal, Grape Nut, Bready, Cracker
- Flavor: Medium Sweet, Medium Body

MUNICH 8

- SRM: 8
- Protein: 9%
- Extract: 79%
- Aroma: Sweet Aromatic, Honey, Bready
- Flavor: Medium Sweet, Medium Body

Specialty Grains

WARTHOG WHEAT

- SRM: 2.5
- Protein: 8 %
- Extract: 82.5%
- Flavor: Pronounced wheat character, breadly sweet

DANKO RYE

- SRM: 4.5
- Protein: 9 %
- Extract: 91.5%
- Flavor: A Polish Rye varietal. Rye bread aroma and a subdued spice, very balanced.

NAKED OATS

- SRM: 2.5
- Protein: 8 %
- Extract: 79%
- Flavor: sweet, nutty, oatmeal cookie

SPELT

- SRM: 1.9
- Protein: 15 %
- Extract: 85%
- Flavor: sweet bread, nutty, silky mouthfeel
